

## Affiliate Program Details

The DebtMasters, Inc. affiliate program is a super way to help yourself by helping others. Our products and services are all designed to help people in financial distress through education, intervention and solid support. We welcome you to learn more here about how our affiliate program works.

The affiliate program has a few really special details that you need to know about. These details mean that even though the basic program can be really lucrative for you, it's even better than you thought. Here's why...

**A referral for life** – Once you refer someone to Debt Masters, you are linked to them as the referrer forever. If they buy another product or service down the road, you will still be in line for the commission

**Average 3 services** – Not only are you in line for additional commission, it's actually really likely that you'll get some too. Over the past decade and a half, each client purchased an average of three services. Your chances of more commission area really good.

**Designed for a lifetime** – Debt Masters products and services are designed to support clients from debt issues, to improving their credit scores, to saving money now and in the future by closing debts and drastically lowering payments... including mortgages. Do you think that someone would like to pay off their mortgage in half the time, and save tens, even hundreds of thousands of dollars? Do you think you know anyone else who would? Definitely! Our programs help people through their lives, so your referral will help them for many years to come, which helps you too.

## Commissionable Product Information

The Debt Masters Affiliate programs are designed to be both generous and easy to understand. We do this by rewarding an action, rather than just a click. To earn the commission, your referral needs to actually sign up for one or more of our programs. If they do, you are well rewarded.

### Debt Mastery Program

This is our most powerful program that helps people with serious debt issues to reclaim their lives and dreams. Better than a trustee, Debt Masters has many more options to provide help. Even better, and something that most people don't know is that Debt Masters works for the client, NOT for the big companies. Trustees, even though they are helping

clients to eliminate debt, are actually by law working for the people holding the debt. While Debt Masters fights to keep as much as possible for the client, trustees must take as much as possible from them. Yikes!

### **Credit Repair and Update Program**

Debt Masters also offers credit repair programs that are extremely effective. The whole concept of the credit score and report is NOT designed to help you out. It is in fact a way to generate more money for the banks and companies supplying credit. If you don't know how the system works (and they do their best to keep people in the dark), it can cost you a LOT of money and years in debt. These programs teach you how to recognize and avoid typical credit traps, and how to get your score back up to keep your interest payments low.

### **Power Financial Program**

This program is for life. It helps people to organize and pay their debts, including their mortgage years and even decades faster than they thought possible, which in turn both reduces the interest and payments by two thirds AND raises their credit score. For anyone who has a mortgage, or owes a lot on credit cards, getting this Power program is simply a no brainer.

### **COMING SOON – Debt Masters Credit Card**

This amazing program offers a pay-as-you-go credit card with a powerful twist. This card help you to raise your credit score. Currently in the final stages of development, this card will be available for you to refer just as soon as it's ready.

### **Miscellaneous Programs**

In all, Debt Masters offers its clients 27 different programs, all designed to help them out when they need it the most. These programs cover all the areas that can be affected by major debt and / or low credit scores. Some of the items include mortgages for those who can't get one elsewhere, car leases, loans, rent-to-own and many more. Debt Masters is the ONLY Company to offer such a complete and wide ranging set of services to help its clients. As an affiliate, you get to offer all these programs as well.

## DebtMasters Services Chart
